the Tank Inspectors attached to the Talukhs
in connection with the Minor Irrigation
Scheme, but in October 1893 the Chief
Engineer took objection to their being
employed on other than Tank work,
and I had no alternative. The 10 per cent

allowed for establishment in the Proceedings
above alluded to, on the Municipal District
Fund and Local Fund General grants, generally
gave about Rs 360/- a month and this
amount has been utilized in maintain-
ing a staff of efficient and trained Overseers,
called Work Inspectors. A copy of my
memo on the subject is submitted for
perusal -

3. There are 9 work Inspectors now
distributed over 8 Taluks and 1 Sub Taluk.
Kunkunhalgi has none and a man is
being trained for it. A list showing their
pay and date of appointment is enclosed.
Their pay is shown on a separate bill and
the Comptroller has been asked to
adjust it at the close of the year, with

10 per cent on the Municipal, District Fund and General Local Fund grants for 1892-93 gives about Rs 360 a month which may be taken to be rather below the average. We can maintain a Work Inspector in each Taluk on something like the following scale.

2 men on Rs 40 a month

3 men on Rs 30 a month

4 men on Rs 25 a month

These men will have to undergo training without pay for about 2 months under the Executive Engineer who has kindly consented to train them. I should like to select these men from among officials on the permanent establishment who will have with the approval of Government their claim to pension, their lien in their appointment and if they deserve it their claim to promotion. But during their training they will lose pay or at any rate half pay. Passed men will be preferred. A

Proceedings of the Government of Mysore, Local Boards Branch, Municipal and Local Funds: dated 21st. June 1895.

READ :-

Letter dated 16th May 1895. No. 1396, from the Deputy Commissioner, Bangalore District. Adverting to the Government Proceedings Nos. 17785—L. F. 68-94 and 18575—L. F. 68-94, dated 20th and 29th ultimo, respectively, calling for certain information about Work Inspectors in this District, I have the honor to state that they have been entertained under the authority contained in para. 9 of the Government Proceedings No. 3075-86—L. 425, dated 23rd May 1892, and prepare projects and supervise the works carried out from the marginally noted funds.

1. District Funds.
2. Local Funds General
3. Municipal Funds.

2. This work was formerly done by the Tank Inspectors attached to the Taluks in connection with the minor Irrigation scheme, but in October 1893, the Chief Engineer took objection to their being employed on other than tank work, and I had no alternative. 3. There are nine Work Inspectors now, distributed over eight Taluks and one Sub-Taluk. Kankanhalli has none, and a man is being trained for it. A list showing their pay and date of appointment is enclosed. Their pay is drawn on a separate bill and the Comptroller has been asked to adjust it at the close of the year, with reference to the outlay on works charged to the various funds alluded to.

MEMO.

Ten per cent on the Municipal, District, Fund and Local Fund General grants for 1892-93 gives about Rs. 360 a month, which may be taken to be rather below the average. We can maintain a Work Inspector in each Taluk on something like the following scale :-

No. 23776-84—L. F. 379-92, DATED, BANGALORE, 21ST JUNE 1895.

ORDER THEREON.—The order of the Government quoted in the above letter does not justify the entertainment for more than three months of the Work Inspectors in question.

2. The appropriation of ten per cent of the allotment for the employment of Special Inspector of Works for all the Taluks, by the Deputy Commissioner, on his own responsibility without the sanction of Government, was irregular. The charges will however be passed, but the Deputy Commissioner is requested to submit at an early date his proposals separately for the consideration and orders of Government.

3. As it is expedient to ensure uniformity of practice in this respect in all the Districts, so that the establishment charges may not exceed the fixed proportion, the Deputy Commissioners of other Districts are requested to submit their opinion on the subject at an early date.

With reference to Government Order No.

L. H. 379-92
calling for opinion about the entertainment
of inspectors for the purpose of inspecting

Local Funds general and the Municipal
Funds, I beg to state that I am of opinion
that inspectors are not required and that the
works referred to may well be inspected
by the Amildars, Assistant Commissioners
and Deputy Commissioners, and the
money saved more usefully utilized
by sinking fresh water wells, improving
musafarkhandas and cart tracks and

and the sanitation of the municipal towns.
If the restriction that the Tank Inspectors and
the Barreners given to Districts for the up-
keep of the minor tanks should not attend

their services can ^{also} be utilized on occasions
arise for the works in question.

Adverting to para 3 of Government
Proceedings No. 23776-84 dated

state that some assistance is
required to enable the Amildars

of works to be carried out in
the Revenue Department and
for supervising them. Instead
of

of allowing temporary, work
Inspectors, it will be better to
employ a Mestri for each Taluk

the honor to submit that since the pro-
hibition of the employment of Taluk
Inspectors on work other than that
connected with the Minor Tank Resto-

is felt by the Amildars in preparing
estimates for and taking measurements

Municipal and Muzrai Funds. It is essential that each Taluk should have a Mestre to prepare estimates for and Supervise works in the Taluk. In the absence of a Separate man for this work the Amildars cannot but use the Services of the Taluk Inspector and thereby act against the Government orders in the matter. To avoid this and to give the Amildars a much-needed help, I would recommend the permanent employment of a Maestri on Rs 12 or 15 per mensem with a horse allowance of Rs 5 according to the amount of work in each Taluk, the cost being charged to the District Funds, Local Funds General, Municipal and Muzrai Funds, in proportion to the outlay under each. The employment of Temporary men chargeable to the works will, I am afraid, not secure efficiency and honest work. But whether the men be permanent or Temporary, it cannot

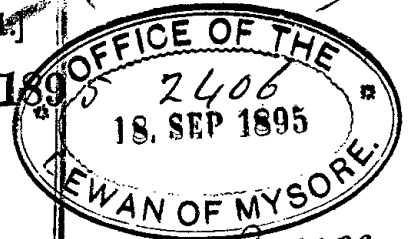

be denied that the need for giving the
Amildars some help in this direction
is urgent and I earnestly hope that early
orders may be passed by Government
on the subject.

Sir

With reference to Government

last, calling for my opinion on the
subject of entertaining work Inspe-

ctors, I have the honor to state that I

am of opinion that the employment
of these men is very necessary. The

present system of utilizing the ser-
vices of D.P.W. officials for two days

in a week for getting up estimates,

is not at all working satisfactorily.

The system of requiring Amildars to sub-

mit their estimates which sometimes

include large works, and in conse-

quence of their want of experience

errors are made in tailing the return

of the estimates and causing long delays

which would not occur with professional

men. In consequence of these long delays

the

(387)

the allotted amount of time lapses, before
the work can be begun to be carried out.

2 I therefore think that the employment of two efficient men at present for the District (as already recommended by the Local Fund Board convened on the 29th April last) on a pay and allowance of the last grade Sub-Overseers in the D. P. W. for carrying out the works sanctioned from District Funds and Local Funds General, will be more economical and ensure the execution of works with greater promptitude and advantage, than can be secured by the existing arrangements.

Sir,
1 With reference to your official memo
no 162 dated 13th Ellh, forwarding for
opinion Govt Proff: no 23776-84 dated
27.3.92
21st June/95 in re entertainment of
special Inspectors for the super-
vision of works executed from
municipal and District Funds and
also Local Funds General, I have
the honor to state as follows:-

I believe the subject under discus-
sion mainly refers to the two latter
works, viz District and Local Funds
General. The municipal works being
quite distinct and the cost of the enter-
tainment of such overseers for the
important stations like Chik-
magalur, can be met independantly
from the municipal funds, I shall
simply confine myself to discuss
the matter connected with District Funds

and Local Funds General.

3 The margin ————— na (

Year	Dist Fund	Local Funds General	Table shows the amount allotted to this District during the past 3 years from both funds.
1892-93	2700	15000	
1893-94	2387	15000	
1894-95	4590	5000 + 7000 under the Agency	

Who sanctioned out of the said allotment amount only to Rs 14975/-, the aggregate number of works being 35 which are mostly wells. Out of these, 6 works have not yet been begun and the rest are all incomplete works. During the 3 years, one half of the sanctioned amount (7630-12-8) has been spent and the other half (Rs 7344-4-4) still remains to be worked out. The slow progress in several cases may be attributed partly to scarcity of labour and partly to want of energy and skill in the supervising agency. The evil can to some extent be remedied by the appointment of trained Inspectors as proposed by the Deputy Commr of the Bangalore District. These men will be able to give timely help to the Amildars in preparing correct plans and estimates and also direct proper

(47) execution of works and taking of accurate measurements. They can also accompany the Inspecting Officers periodically and be present on the work where they test the quantity and quality of work turned out and attend to any instructions which may be given on the spot.

4 Out of the 35 works above mentioned, only 4 were sanctioned for the Malnad Taluk of Mudgere and Hoppa including Yedahalli Sub Taluk. The rest are all chiefly in the maidan parts of Chikmagalur, Zarikere and Hadur.

Taluk	no. of works	Taluk as per
1 Chikmagalur	10	margin.
2 Zarikere	11	
3 Hadur	10	

5 The next point to be considered is, the number of Inspectors required for the District and the funds available to meet the cost. Under the existing circumstances appointment of an Inspector for each Taluk is not called for, although it may be found necessary hereafter to give one at least to each of the maidan Taluk where the number of works may increase under proper supervision. Further additional

provision seems to be necessary, to
give a head to each of these itinerat-
ing officials without whom the latter
cannot be expected to move a foot
freely. The average amount of work
turned out - per annum in the District
during the past 3 years is only Rs 2540/-
This hopes that this will gradually
rise, when a competent agency is
appointed to regulate the work. The
Budget allotment - from District Fund
for 1895-96 is Rs 1929/-. If this be added
to Rs 1344/- to be yet worked out as
the sanctioned amount of the past
3 years the total will be Rs 9200/-
and odd. Ten per cent on this for
establishment charges comes to about
Rs 900/-. This can be safely said to be
in our disposal to defray the estab-
lishment cost during the remain-
ing months of the current year. For
the present, sanction of Govt. may be
solicited for the entertainment on
a tentative measure, for one year,
at 2 Inspectors and 2 peons. The rates
of pay and allowance provided for
these Inspectors may be the same as

(42)

as allowed for the last grade Sub-
Overseer _____ in the D.O. W. The total
cost of this establishment for one
year will be Rs 1332/- as indicated
in the margin

2 Work Inspectors at	Three months
Rs 30 + 15 per month Rs 90 - - -	in the year
2 Peons @ Rs 8 per month " 16 - - -	have already
<u>106 - - -</u> x 12	elapsed and
Total for 12 months 1272 - - -	it may take
Contingencies - 60 - - -	another month
<u>Grand Total 1332 - - -</u>	to have the

proposal sanctioned. Thus the cost of
the establishment for the remaining
8 months at the above calculation
will not exceed Rs 900/- In the course
of time the Inspectors thus appointed
maybe able to use their energy and
influence to import skilled labour
into the interior of the District by their
constant movements with these class
of men. I am also of opinion that a
good Inspector cannot be had especial-
ly for this Malnad District for any-
thing less than the salary proposed.
As rate of wages is on the increase
in the Coffee Estates, the rate of pay
proposed for the peon ought to be
somewhat attractive. One of the

Inspectors thus appointed can be laid off to supervise the works in the Hadur and Sarihere Taluk and the other of Chikmagalur, Mudgere and Hoppa including Eyedahalli - Sub Taluk. The number of works to be supervised by the one will be greater, while the other will have to traverse (over) a larger area at times.

6. In conclusion, I beg to submit that the scheme above proposed will tend to check delay, and on the other hand ensure system and responsibility in the execution of works carried on under the Revenue Agency. It would further avoid needless correspondence between these and the D.P.W. officers in the matter of the former seeking the professional aid of the latter, although it may be necessary to seek the advice of the D.P.W. Officers on important and intricate matters; but such calls may be occasional and not constant as at present.

Sir

I have the honor to acknowledge the receipt of your official Memo No 163 dated 13th instant calling for an expression of opinion regarding the entertainment of an establishment for the supervision of works carried out from Municipal, District and Local Funds and in reply to submit that I consider it absolutely necessary that works which are carried out by the Taluk Authorities should be periodically inspected, measurements of works under construction taken, description of materials collected and used, inspected and

reported upon, and when works
are completed, -final
bills submitted for adjustment.

2 It is also indispensable that the
services of some one who is able
to draw plans and prepare estimates
should be available when a District
Officer inspects places where the
construction of works are recom-
mended, in view that the plans and
estimates may be prepared according
to instructions issued.

3 At present Amildars of Taluk
have very often to request some
official of the P. W. D. to help them
in preparing estimates; otherwise,
they are prepared by some non-
professional person and not un-
frequently is it found that errors
are omitted and the estimates in-
correctly framed.

4. It is not necessary, I think
for a man to be employed in each
Taluk. He would scarcely have
enough of work, and so far as
regards

(47)
regards the Nadur District, two com-
petant overseers would, in my opinion,
be enough. The 5 Zaluks and 1 Sub
Zaluk could be divided into two
divisions and one man placed in
charge of works under construction
in each of these divisions.

5 As regards the salary, I would
recommend that the two men be
placed on the same footing as a
sub overseer in the P. W. D., the salary
of which appointment is Rs 30/- plus
Rs 15/- house allowance per mensem.

ORDER THEREON.—The question of employing Mestris or Work Overseers or Inspectors for the supervision of Public Works carried out by Revenue Officers from District Funds, has been under the consideration of Government for some time past. Before passing final orders, however, Government consider it necessary to obtain definite proposals from the Deputy Commissioners of all the Districts in the Province. It seems desirable that the establishment to be entertained should also be entrusted with the supervision of public works in Minor Municipalities. The Deputy Commissioners should ascertain and report the normal expenditure incurred annually on public works from both funds, and to propose establishments the cost of which should not be more than ten per cent of the cost of works, such cost being debited *pro rata* to both the Funds. The number and qualifications of men to be employed, their pay, allocation and such other particulars, as may be necessary should be reported as early as practicable.

Government Proceedings No 11709-17
2.3.379-92

dated 16th Ultimo, calling for the submission
of definite proposals in regard to the ap-
pointment of Mexican or Work Inspectors
for supervision of works undertaken here
by Revenue Agency.

With reference to the above has the honor
to state that the subject of appointing
Mexican was discussed in the Local Fund
Board convened on the 4th Instant and
they are of opinion that it is not desira-
ble to entrust the works under District
and Municipal Funds as much in-
convenience would be caused thereby.

2. The undersigned concurring with
the above would propose that 10 per
cent on the expected average annual
expenditure of Rs 10000, if Inspectors are
employed from District Funds and
Local Funds General, which comes to
Rs 1000, may be made available for

(68)

entertaining 2 Professional hands designated as work Inspectors on pay of Rs 30/- and Permanent horse allowance of Rs 10/- each. Owing to the want of proper supervision at present many of these minor works are allowed to lapse and the present average expenditure is consequently small.

3. An extract from the Local Fund Board Proceedings is herewith submitted for kind perusal.

4. List showing the average expenditure from Municipal Funds in the District for the last 5 years amounting to nearly Rs 8000/- per annum and the average expenditure shown for the last 3 years from District and Local Funds General amounting to nearly Rs 5000/- per annum are enclosed for reference.

Please see para 2.

5. Should a Work Inspector be granted for District Funds the undersigned would propose to give him a certain portion of the work at present carried out by the D. P. W., such as repairs to civil buildings, &c, and which would show an increase in the expenditure.

12. Proceedings No 11709-17
25.379-92
dated 16th April 1896 requesting the submission of definite proposals with regard to the establishment for supervising works under District and Municipal Funds.

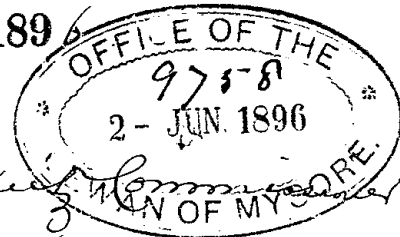

The Board is of opinion that it is not desirable to entrust the supervision of works under both the Funds to a single hand as much inconvenience would be caused thereby but that as a sum of about Rs 10000 is spent annually from District and Local Funds General the 10% of this sum be made available for the salary of experienced work inspector.

With reference to Government
Proceedings No: ¹¹⁷⁰⁹⁻¹²_{L 7379-92} Dated 16th April
1896, calling for definite proposals from
the Deputy Commissioners in regard to
the entertainment of Local Fund Trustees
or Inspectors, I have the honor to submit
herewith extract from the Proceedings
of the Local Fund Committee of this
District at a meeting held on the 9th
Instant which embodies the views of the
Board on the subject.

2. A statement shewing the
expenditure incurred from the Municipal
and District Funds as well as from Local
Funds General for the last 4 years on
account of Public Works executed by
(Revenue)

(72)

Revenue officers is herewith submitted for the information of Government.

3. The average expenditure under the above heads for the last 2 years is Rs 38436 and even if Rs 36000 be taken as the average for the future years, the funds available for the proposed establishment charges at 10 per cent of the expenditure, will be Rs 3600 per annum or Rs 300 per mensem.

4. I beg to propose that a work Inspector or Maistry with a peon for each Taluk or Sub Taluk as detailed in the accompanying ^{allocation} statement be appointed. The statement shows that the pay with the horse allowance of these Inspectors or Maistries comes to Rs 223 and the pay of their peons to Rs 55, thus making a total of Rs 278 for the whole establishment.

I have the honor to be,
Sir,

DEPUTY COMMISSIONER'S OFFICE,
MYSORE DISTRICT,
Dated Camp Chamara 1896

The Secretary to the Government of Mysore,

SIR,

With reference to Govern-
-ment Order No. 11709-17
27.379-92
of the 16th April 1896 and
your reminder No. 12482-89
27.379-92
of the 14th May 1896, calling
for proposal for the employ-
-ment of mestries or Overseers
for the supervision of the
District Fund and the mu-
nicipal works, I beg to sub-
mit as follows: -

2. A statement shewing
the expenditure incurred

in the District proper in 1894-95
from the Municipal and the
District Funds and also from
the Local Funds General is
herein enclosed. It will
be seen from it that the
total expenditure incurred
from all those funds amounts
to Rupees 15703. This gives
an average per annum
of Rupees 1964 for each of the
8 taluks in the District proper.
In the order ^{under} reply, it has
been stated that the cost
of the proposed establishment
should not be more than
ten per cent of the cost of
the works. Ten per cent of the
above amount of Rupees
1964 is Rupees 196 in round
numbers. Thus, a Ministry

Rs 196 per year or
on ¹/_n Rs 16 per month per Taluk
may be entertained. The
qualifications of the men
to be employed may be
the same as those of the
Taluk Mistries in the Public Works
Department.

3. The same may be done in regard to the 5 Saluts of the French Rocks Sub Division of the District. The Sub Division Officer has, however, been called on to send in his opinion. It will be submitted as soon as it is received.

Dated 7th June 1896

To

The Secretary to the
Government of Mysore,
General & Revenue Department

Sir,

With reference to Proceedings
of Government no 11709-17
R.L. 379-92 dated
16th April last, I have the honor
to submit a memo showing
the normal expenditure
incurred in the District
from District Funds proper,
Local Funds General and
Municipal Funds.

2. It will be seen from
that memorandum that
the normal expenditure, which
I calculate upon the average
for the last three years is
Rs 22,863 and at 10 per cent. of the

an establishment costing Rs 2280 annually has to be maintained. I need hardly say that at present owing to want of skilled agency to supervise works carried out by the Revenue Department very great difficulty is experienced in effectively supervising them ~~works~~.

3. I propose that a mester be appointed for each Taluk and Sub Taluk of this District at a cost of Rs 201 per mensem or Rs 2,412 per annum. This amount is a little over the percentage allowed but these mesters have besides to supervise the execution of petty repairs to civil buildings under which head an average expenditure of Rs 1500 is incurred annually.

4. It is a question whether the present Tank Inspectors may not be, except perhaps in Taluks where the number of tanks is very large and a separate Inspector is absolutely required, entrusted with the supervision of the works of the class now under contemplation. Their pay will thereby be raised and the services of a better class of subordinates can be secured. At present the amount of work expected to be done by ^{the} Tank Inspector in one Taluk is quite out of proportion to that of one employed in another though there is not much difference in the pay drawn by both of them. This anomaly will cease

case if in Talukho, such as
Darrangere for instance, where
the tankos are as compared
with its size and importance,
few, the supervision of minor
tankos is entrusted along with
other work to the Taluk Mestris.

5. In the town of Chitaldung
and Darrangere there are over-
seers who supervise the exe-
cution of Municipal works.
The Taluk Mestris that
will be given for these Talukos
will therefore have nothing
to do with them.

I have the honor to be

Sir

Your most obedient servant

Shimoga District
Deputy Commissioner's Office
Shimoga 2nd July 1896.

To

The Secretary to Government
General and Revenue Departments.

Sir,

With reference to Proceedings of
Government No. 11709-17 dated 16th
L.F. 379-92
April 1896 on the question of employ-
ing Mestries for the supervision of
Public Works carried out in the Revenue
Department. I have the honor to enclose
a statement showing the expenditure
incurred from Municipal and
District Funds for the last 4 years
from 1891-92 to 1894-95.

2. It will be seen therefrom that
the average annual expenditure of
District Funds for the whole District
is only Rs 2743/- while the highest

expenditure in any Taluk does not exceed Rupees 803/-.

3. As regards the Municipal expenditure also, the annual average for all Municipalities excepting Shing Town is Rs 6340/-, while according to Taluks, it is only in Hornali and Shingoga that the expenditure exceeds Rupees 1000/-.

4 Under these circumstances, I don't think it advisable to submit proposals for any permanent Establishment. It is not expedient to appoint a Mestry to look after works in more than one Taluk as such a low paid official cannot be expected to supervise works at great distance, or to serve satisfactorily more than one master.

5. I would therefore recommend that for the present the Amildars in this District may be permitted as an

(91)

experiment to employ temporary Work
Mestres whenever convenient on a
commission not exceeding 10 per cent
of the expenditure incurred on the work
and to charge it to the respective works.

6 If the Government should not
view this proposal with favor but con-
sider it proper to have some perma-
nent Mestres, the experiment may
be tried in the Taluks of Shimoga,
Honnali, Sagar and Shikarpur
where the combined Municipal
and District Fund expenditure is
average more than Rupees 1200/- per
annum. The pay of the Mestres may be
Rs 12 per month for Honnali and
Rs 10 for the other Taluks.

7. The combined expenditure
in other Taluks is too poor to warrant
the employment of any Mestres
~~for the present~~ and may be left

out of consideration for the present.

Sir,

According to Government
Proceedings No. $\frac{11709-47}{L. F. 379-92}$ Dated '16:
April last, calling for additional
information in regard to the
appointment of Messrs or Work
Inspectors for supervision of works
undertaken by Revenue agency,
I have the honor to forward for
consideration of Government,
Copy of Resolution No 5 Dated 30:
Instant, of the District Fund Board.

2 ——— The lowest expenditure
per

per annum on Municipal and District Fund works (excluding the outlay on Local Funds) General works will not, I think, fall short of Rs 30,000 if the establishment proposed by the Board is sanctioned. It is for want of a body to supervise works that there are chronic incomplete works and little expenditure under the Revenue Department. Last year there was only one mesitr lent from the Public Works Department on a salary of Rs 30 with a pony allowance of Rs 15 per mensem. It was only in the latter part of the year that two more temporary mesitrs were employed for pushing on with sanctioned works which had otherwise, no chance of being carried out

out. With this small establish-
 -ment, the Cost of which was
 only Rs 680, there was an outlay
 of about Rs 30,942* on works under
 District Funds, Local Funds General
 and Municipal Funds, against
Rs 16,240 in the year before, as
 noted in the margin*. It will
 be economical if as many
 ordinary works as possible are
 carried out in the Revenue De-
 -partment under the supervision
 of Builders assisted by a staff
 of trained men of the same status
 as Tank Inspectors and Taluk
 Messies. Considering more es-
 -pecially that the Cost of establishment
 debited by the Public Works Depart-
 -ment

Rs.	12,623.

Department ~~minimum~~ is $17\frac{1}{2}$ per cent. At present, there is no agency for supervising Munerai works. They might also be supervised by these work Inspectors or Messrs, ten per cent or less being taken as contribution - towards the Cost of Establishment - from the Estimates of works. The Messrs, whose services have been lent by the Public Works Department, will be placed in charge of works in the Municipalities of Chapra Ahir and Grama, in addition to Local Fund works in the Chapra Taluk and Ahir Sub Taluk and arrangements will be made to employ trained men to the remaining Taluks on receipt of Government sanction to the Board's proposal.

dated the 16th April 1896, regarding
the employment of Mestries or
Overseers for the supervision of
District Fund and Municipal
works carried out by Revenue
officers, I have the honor to submit
herewith a statement shewing the
expenditure incurred on Public
works carried out by Revenue
Officers from the District and

and Municipal Funds ⁽¹⁰⁷⁾ during the three years ending 30 June 1895, from which it will be seen that on an average, the annual Expenditure from District Funds amounts to Rupees 12,638 and that from Municipal Funds to Rupees 7,137 or Rupees 19,775 in all. Ten per cent of this amounts to Rupees 1,977.5 and will be sufficient to meet the cost of a Maistry for each Taluk. The Maistry should also be available for the supervision of any Imzara or Local Fund General works which may be in progress in the Taluk, those funds contributing 10 per cent of the cost of the work on account of the Maistry's pay.

2. The Maistry should have a

Knowledge of measurement, surveying, leveling,
drawing and estimation. His pay
may be fixed at Rupees 15 with a
horse allowance of Rupees 5 per
month. He would be under the
immediate supervision of the
Amildar, his monthly journal

Sir,

Adverting to para 2 of Government
order No 6931-9 dated 15th Instant, I have
the honor ³⁷⁹⁻⁹² to state that no separate estab-
-lishment is maintained for the supervision
and execution of works in the minor Mun-
-icipalities of this District.

2. It is not inopportune, I hope,
in this connection to say that the rural
Municipalities outside the Taluk Head
Quarters would be all the better for a little
more care and attention bestowed on them.
Nobody looks after them, except that the
Amildar does so in a general sort of way,
and comes to the spot once a month to hold
meetings of the Board. The Shikdar is not
a member, and would not moreover com-
-mand any influence if he were. The

Sweepers work is not supervised properly and these towns, except on the few occasions of the Superior Officers' visits, when things are brushed up and eye-wash is applied, are scarcely distinguishable in a sanitary point of view from non Municipal villages.

3. As a partial remedy, I would appoint a responsible Mutsuddi on Rs 8 or 10 a month for every Municipal town, in which such an official is not now in existence.

The marginal Municipal towns are of this category. If a Mutsuddi exists he can be held responsible for failures and lapses, for keeping the accounts, and getting the details of works executed, under the guidance of the work Inspector and subject to the control of the Amildar.

I would respectfully urge this matter on the early consideration of Government, as from close personal observation, I am convinced that the proposal is one of vital consequence to the sanitary efficiency of our minor

The Chickmagher and Barut Municipalities have each an Overseer, one on Rs 25/- and the other on Rs 15/- per month. The question of dispensing with these 2 hands in case a professional agency is employed for the supervision of works under Municipal and Local Funds was discussed at the Municipal meeting held at Chickmagher on the 22nd December 1896, but the proposal was not supported by the Board.

2. The undersigned concurring with the views of the Board considers that no practical relief will be afforded if the supervision of Municipal and Local Fund works is entrusted to one and the same subordinate, seeing that the works falling under Municipal are confined to smaller areas

3. The undersigned would add that
the money employed for each branch
should be distinct. In this way confusion
will be avoided in distributing the cost

READ THE FOLLOWING PAPERS :—

I. The Proceedings of Government No. 11709-17—L. F. 379-92, dated, Bangalore, 16th April 1896.

The question of employing Mestris or Work Overseers or Inspectors for the supervision of public works carried out by Revenue Officers from District Funds, has been under the consideration of Government for some time past. Before passing final orders, however, Government consider it necessary to obtain definite proposals from the Deputy Commissioners of all the districts in the province. It seems desirable that the establishment to be entertained should also be entrusted with the supervision of public works in minor municipalities. The Deputy Commissioners should ascertain and report the normal expenditure incurred annually on public works from both Funds, and to propose establishments, the cost of which should not be more than ten per cent of the cost of works, such cost being debited *pro rata* to both the Funds. The number and qualifications of men to be employed, their pay, allocation and such other particulars, as may be necessary, should be reported as early as practicable.

III. Government Proceedings No. 6931-9—379-92, dated 15th December 1896.

As the District Funds and Local Funds General are allotted districtwar, while each municipality has its own income, the Comptroller is requested to state early whether the salaries of the establishments proposed for each Local Fund circle may, if sanctioned, be paid monthly and charged to the "Suspense Account" and at the end of each year, the total amount distributed among the various municipalities and District Funds as well as Local Funds General in proportion to the expenditure incurred from the respective Funds on works supervised by such establishments during the year.

2. The Deputy Commissioners of the several districts are also requested to state as early as practicable what establishments, if any, are now employed to supervise works in municipal towns and whether, in the event of the proposed establishments for the supervision of Municipal and Local Fund works being sanctioned, they could see their way to recommend the abolition of the existing agency.

IV. The following replies received from the Comptroller and from the Deputy Commissioners of districts.

(a) Letter No. 1255, dated 15th December 1896, from the Comptroller.

With reference to Government Proceedings No. 6931-9—L. F. 379-92, dated 15th December 1896, enquiring whether, in the event of the establishment proposed for each Local Fund circle being sanctioned, their salaries may be debited in the first instance to "Suspense" and at the close of the year apportioned to the respective Funds in proportion to the expenditure incurred therefrom and supervised by such establishment, I have the honor to state that the cost of the establishment will, in the first instance, be debited to District Funds, month after month, and at the

Proceedings of the Government of Mysore,

close of the year the distribution will be made by transfer as is done in the case of the office establishment employed in the Dewan's and Comptroller's offices on account of Municipal Funds.

- reporting that there are at present no separate establishments to supervise work undertaken in minor municipalities in their districts except in Seringapatam, Chikmagalur, Birur, Chitaldrug and Davangere, and that these may be continued as heretofore.

No. 13938-46---L. F. 320-96, DATED, BANGALORE, 30TH JUNE 1897.

ORDER THEREON.—The pressing need for an agency for the supervision of works carried out by the Revenue Department, has been made out to the satisfaction of Government. The proposals submitted by the several Deputy Commissioners, however, vary considerably from each other; and the most satisfactory arrangement would appear to be to give each taluk or sub-taluk a Work Inspector with a peon on Rs. 6. The Work Inspectors might be divided into four classes on Rs. 15, 20, 25 and 30, respectively with a horse allowance of Rs. 7, the number of men in each class being fixed with reference to the requirements of each district. Under this arrangement, if the cost of the establishment should, at any time, be likely to exceed 10 per cent of the cost of works executed, a reduction could at once be effected by putting more taluks or sub-taluks than one in charge of a single Work Inspector. Deputy Commissioners are requested to submit further proposals for the final orders of Government in the light of these remarks.

(2). But, pending the introduction of a uniform scale of establishments and salaries as above, Government are pleased to sanction tentatively for one year, that is, with effect from 1st July 1897, the proposals actually made, which are as shown below :—

3. The establishments thus temporarily sanctioned will be entrusted with the execution of all works undertaken from the District Funds and Local Funds General, and also, as far as possible, of works carried out from Municipal Funds in minor municipalities. Where the latter arrangement is found impracticable, owing to the works to be supervised being extensive and scattered, separate establishments may be entertained temporarily in municipalities within the limit specified in para 5. The establishments now maintained in some of the Local Fund circles should be discontinued or absorbed; but the Overseers already existing in the municipalities of Seringapatam, Chikmagalur, Birur, Chitaldrug and Davangere will, pending further orders, be specially continued under the designation of Work Inspectors.

4. The salaries will be first paid and afterwards adjusted in the manner suggested by the Comptroller in his communication read above.

5. The cost of establishments should for the present be kept well within 10 per cent of the total cost of works executed; and should it be found at any time during the year that this limit is likely to be materially exceeded, the necessary reduction of establishment should at once be made and a report of the same forwarded to Government.

2. It is observed that the temporary establishment has now been in existence for two years and, it is expected that the Deputy Commissioners will now be able to make definite proposals regarding the retention of the establishment and the scale of salaries that may be given to the required staff. Their attention is accordingly invited to Proceedings No. 13938-46—L. F. 320-96, dated 30th June 1897, referred to above, and they are requested to submit their reports with definite proposals as called upon in para 1 thereof.

3. The Government are, in the meanwhile, pleased to sanction the continuance of the existing establishments in the several districts for another year pending the issue of final orders on the subject.
